JURA Connect App

PROFESSIONAL

Innovative communication

A transmitter and an app are revolutionising communication between JURA coffee machines and users or vending and operating providers. JURA Smart Connect transmits relevant information about counter readings and messages such as 'fill beans' or 'empty tray' to a smartphone via Bluetooth®. This information can be viewed at any time and sent to defined e-mail addresses with the free JURA Connect App. Settlement and maintenance have never been so easy or convenient.

Technical overview

Technical data

Compatible with Android & iOS	■
Messages & counter readings can be sent by e-mail	■
Messages & counter readings can be sent automatically by e-mail (Android only)	■
Approvals	**Bluetooth** SMART
Article number Smart Connect (transmitter)	72167

Technical requirements of smartphone / tablet

Milk system cleaning operations	8
Cleaning	30%
Filter change	1%
Descaling	Filter in use

Vending and operating providers, as well as users, can be quickly and easily notified when cleaning is due or how often maintenance programmes have been carried out. This makes it easy to plan maintenance schedules for different machines.

Prompts

| GIGA X3 Professional	
MAINTENANCE COUNTER	**MESSAGES**	MACHINE SETTING
Alarm time(s): 2015/02/27 15:25	
No drip tray. Please insert the drip tray.	
Fill the water tank. Please fill the water tank.	

Messages about the machine's status (e.g. fill water, fill beans, empty coffee grounds) are sent automatically*, so they always reach the relevant people. This ensures that the coffee machine is always ready for use.

* Android allows e-mails to be sent automatically. iOS requires a brief confirmation via the user interface.

The app can be downloaded here:

Note: To make full use of JURA Connect, you will need the following: JURA Connect App (available from our website), the Smart Connect transmitter (art. 72167) and an active Bluetooth connection between the coffee machine and smartphone. The latter must satisfy the technical requirements and is not supplied as standard.
